

Sid Mofya

San Francisco Bay Area, California, USA | CXB Ventures LLC (California, USA) | sid@sidmofya.com

Founder, MOTIF 54. Co-founder, CopperCloud. Strategy and Finance Lead, Kafwego Resources (Zambia). Independent adviser and facilitator.	
EXPERIENCE	
Founder, MOTIF 54 San Francisco Bay Area	Jan 2024 - present
Operates at the intersection of minerals, energy and compute, upstream of capital deployment. Helps allocators and operators frame long-cycle decisions where physical constraints, institutional capacity and sovereignty are inseparable.	
Co-founder, CopperCloud Zambia and United States	2025 - present
Compute infrastructure for Africa's AI economy, built so a buyer's claims about where and how their workload ran can be independently verified.	
Strategy and Finance Lead, Kafwego Resources Zambia	2025 - present
Strategy and capital formation for mineral resource development.	
Strategic adviser and board adviser, Various organisations United States, Zambia and multi-region	Jan 2018 - present
Board and advisory roles across technology and investment: Expeditionary (human-AI high-stakes negotiation), Whipsmart Ventures (deep tech investing), Tesseract Icons (intellectual property with cultural icons), JEGO Technologies (electric vehicles for Africa), African Diaspora Investment Fund (mobilising diaspora capital), and BongoHive (technology hub, board). Previously Restless Development, Kalene Education Fund and LIONS@frica.	
Investment Expert (contract), African Union Addis Ababa, Ethiopia (remote)	Nov 2021 - Dec 2024
Designed financial architecture for mobilising African diaspora capital into technology and infrastructure, aligning supranational funding frameworks with on-the-ground execution constraints across jurisdictions.	
Executive Director, Draper Venture Network San Francisco Bay Area	Jan 2021 - Aug 2023
Led strategy for a global alliance of independent venture capital firms representing more than \$2.5B in collective AUM and hundreds of operating companies. Capital coordination, fund architecture and shared infrastructure across jurisdictions; designed network systems for cross-border co-investment and platform-based syndication.	
Strategic Partnerships, Draper Venture Network San Francisco Bay Area	Aug 2014 - Dec 2020
Led the professionalisation of the network's operating model, from informal alliance to coordinated value-creation system. Structured cross-border intelligence sharing and alignment across US, European and Asian member funds.	
Corporate Liaison, The Henry M. Jackson Foundation for the Advancement of Military Medicine Dar es Salaam, Tanzania	2010 - 2014
Managed operational deployment and government liaison for large international programmes in Tanzania. Regulatory navigation, public-sector coordination, and execution across US funding bodies and national institutions.	
Energy Manager, UK Ministry of Justice London, United Kingdom	2008 - 2010
National energy programme spanning governance, capital allocation and execution. Sabbatical taken during the role to attend business school.	
Process Technologist and Technical Auditor, Royal Dutch Shell Cheshire, United Kingdom	2002 - 2008
Industrial systems, process integrity and large-scale operational risk.	
Co-founder and CEO, Online World Technology Chingola, Zambia	1999 - 2002
Early-stage internet venture in Zambia during the first wave of commercial connectivity.
